

Core Values:

We believe in a Kingdom theology and the faith to see a victorious church and a global harvest rise in the earth.

We see the raising up of the "Tabernacle of David" among the nations - A free Spirit of liberty and worship in the manifested presence of Christ. A freedom unto life and a breaking of the bands of religious bondage.

We actively pursue the equipping of the saints for the work of ministry by the five-fold ministry.

We believe in the priesthood of the believers and the work of Christ's ministry through the saints.

We believe in the discipling of the nations through local church ministries.

We believe in the need of connecting through relationship rather than common purpose.

It is out of relationship that common purpose will be found.

We believe in God's unfathomable mercy and amazing grace.

We proclaim a message of the power of God's grace and not a message of law.
